PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

A cantonment and barracks area is located immediately east of the village of Lagernyy, 7 kilometers (km) southeast of the town of Soldatskaya, and 4 km west of the city of Prokhladnyy (Figure 1).

The cantonment occupies 250 acres and contains 9 storage buildings, 5 barracks, an administration building, and 3 small general purpose buildings. The southwestern part of the cantonment and an area to the east appear prepared to accommodate approximately 130 squad tents. Several times this number could be placed in the remaining areas of the facility.

The barracks area occupies 150 acres and contains 5 administration buildings, 18 barracks, 4 general storage buildings, 2 motor parks, a vehicle repair shop, 7 vehicle sheds, 2 small general purpose buildings, and a small-arms range. Between the cantonment and the barracks

area, is a wheeled-vehicle driver-training track (Figure 2).

Only 3 usable photographic missions were available--a TALENT mission of [REDACTED]

[REDACTED] None of the photography indicates a high level of activity, especially in the cantonment, but both the cantonment and barracks area appear to be well maintained. The areas to the north and east of the cantonment were being used for small-unit tactical training in [REDACTED] as evidenced by trenches, rifle pits, and weapons emplacements. In [REDACTED] these features had disappeared and the wheeled-vehicle driver-training area had partially replaced them. Two additional barracks have been constructed in the cantonment since [REDACTED] A playing field was discernible in [REDACTED] but this had been obliterated in [REDACTED]

DESCRIPTION OF INSTALLATION

Railroad Service

The installation is situated 1.5 km from the Rostov-Baku railroad. Trackside roads facilitate loading and unloading.

Road Service

Two-lane, hard-surfaced roads connect the installation with the village of Lagernyy, the town of Soldatskaya, the city of Prokhladnyy, and the Rostov-Baku railroad.

Administrative and Troop Housing Areas

Area D1 contains 1 administration building and 5 barracks.

Area D2 contains 4 administration buildings and 18 barracks.

General Storage Areas

Area E1 contains 9 storage buildings.

Area E2 contains a supply building.

Area E3 contains 3 supply buildings.

Other Buildings

Area H1 contains 3 small general purpose buildings.

Area H2 contains 2 small general purpose buildings.

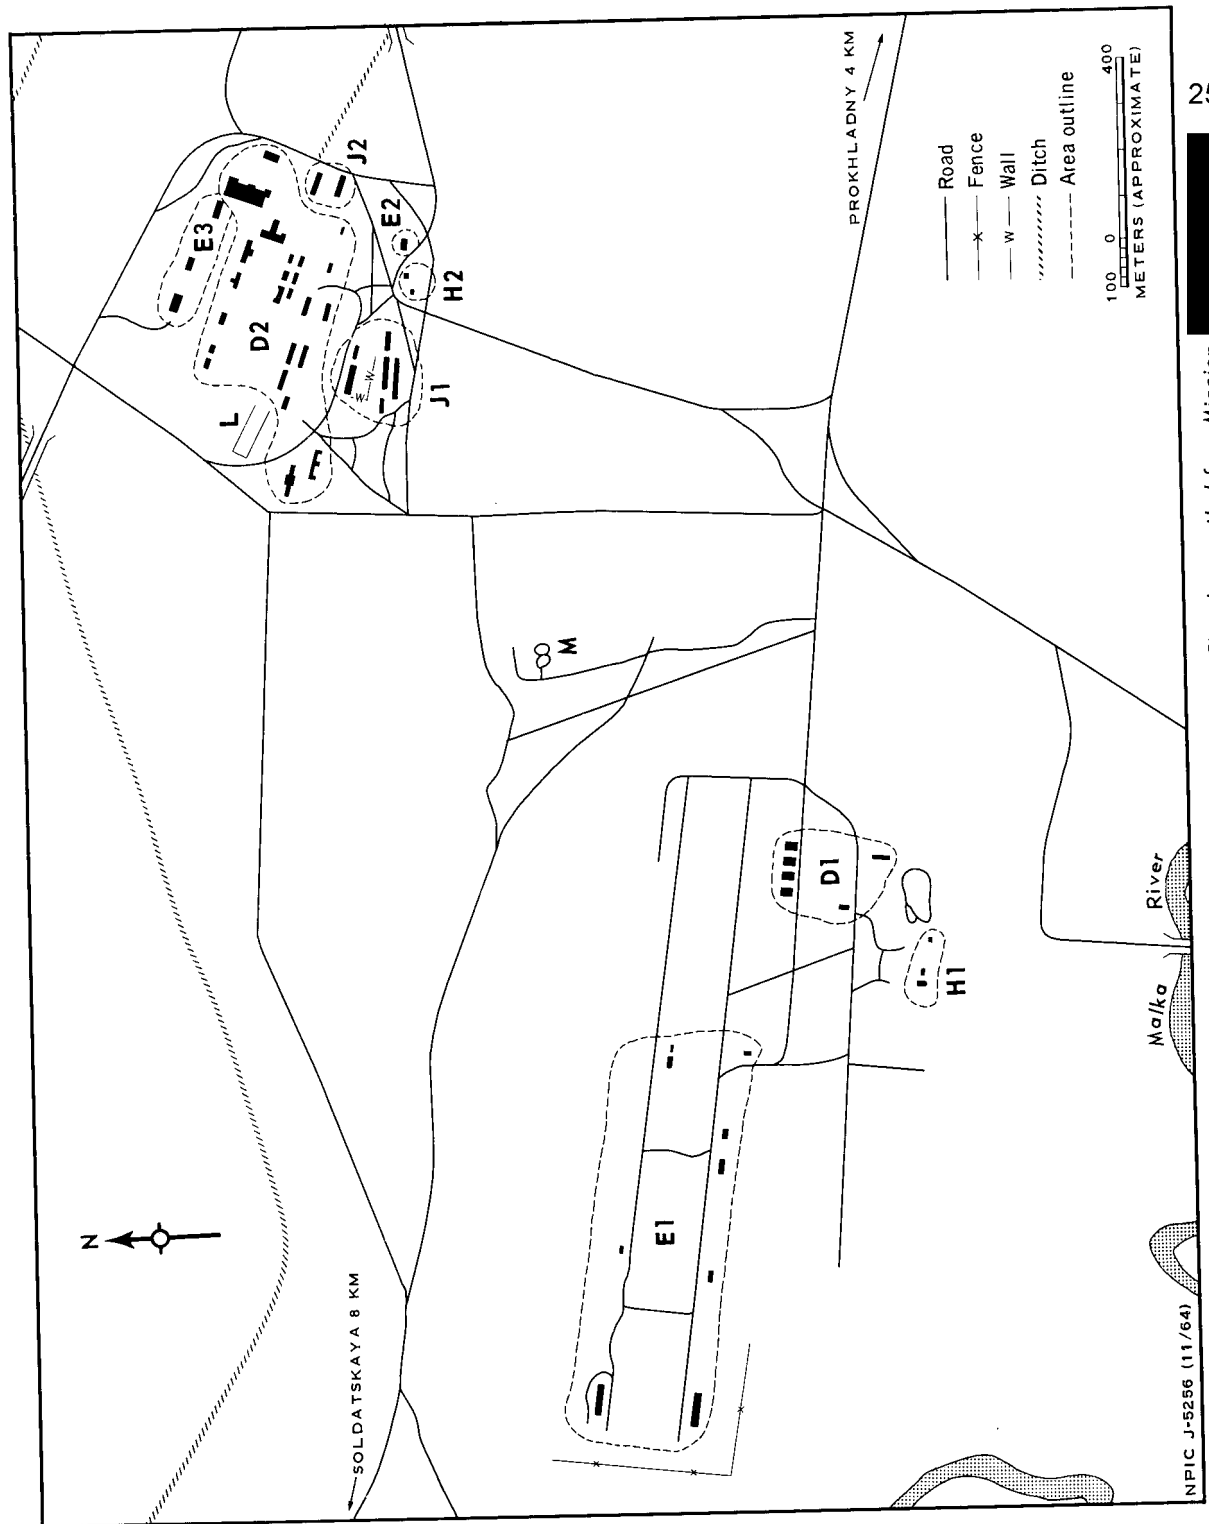

Equipment Storage/Maintenance Areas

Area J1 contains a 330- by 130-foot motor park area, a 295- by 25-foot vehicle shed, a 115- by 30-foot vehicle shed, a 230- by 30-foot vehicle repair shop, a 130- by 30-foot vehicle shed, a 90-

by 30-foot vehicle shed, and a small general purpose building.

Area J2 contains a 160- by 160-foot motor park area, a 160- by 40-foot vehicle shed, and a 155- by 30-foot vehicle shed.

Small-Arms Firing Range

Area L is a 370- by 105-foot small-arms firing range.

Driver-Training Area

Area M is a figure-8 wheeled-vehicle driver-training track. This track does not appear to be in constant use.
